SATERDAY, OCTOBER 2d, 1858.

BAYLESS W. HANNA will speak at Coler ick's Hall, THIS EVENING at 7 o'clock. Hanna is an eloquent speaker, and will pro- them. claim the true democratic doctrine.

Rev STEPHEN H. BATTIN of Cooperstown New York, will officiate in Trinity Church of this place, to morrow morning and afternoon, at the usual hours of holy service.

Jungs Dawson has been induced by the ur gent solicitations of the people of Lagrange Co. without distinction of party, to hold the Court in that county next week. There are several highly important criminal cases to be disposed of, and the desire to have Judge Dawson's servicas was so general and so urgently expressed. that he did not feel at liberty to decline. He will consequently be unable to accompany Mr. Case in a joint convass to the several county seats, as he had intended doing; nor will he be able turther to canvass this county. His friends interests and aid his political prospects by con tinuing the canvass until the election.

The Canvass.—Mr Dawson has just finished Falsifying the Record—Charges the canvass of Elkhart and Lagrange Counties. and 'his reception has every where been most rely on their being at the polls.

Allen Co. will do her whole duty, and give a larger majority for Dawson than ever before for any congressional candidate. The skies are bright, and success certain if we only marshal our forces properly and bring them to the charge. We call on every democrat to be up and doing.

County Expenditures.

Mr Bayless, Republican candidate for Legislature, devotes a considerable portion of his speeches to the subject of county expenditures. and is by no means sparing of his charges of extravagance and mismanagement against the offi- that Mr. Hawkins offered the following resolucers, nor very particular whether they are well tion: founded or not. Our County Railroad Stock.

The Republican complains of bad managemen because our county railroad stock was not sold at a time when it might have been for 85 cents, on the dollar. We much doubt if there ever has been a time when this stock would have realized that sum in cash; but even if there has, it was at the period when Judge Hanna, whom the Republican recommends as a model-man for Co Commissioner, was entrusted with the charge of this matter, as agent for the county-so the commissioners are not to blame. The truth is, as all know, at the time the stock would have grove presented a claim of \$9 00 against the sold, no one wished to dispose of it, as there was railroad financier, and his triend Bayless, whose views he echoes, also has some reputation that way. Both of them hold stock in the same railroad company as the county does. How is it ation on the Body of a child found in Springfield then that they did not sell? and why do they blame the county officers for pursuing the same course they themselves have done The com-Let there be a general attendance. Mr plaint certainly comes with a bad grace from

The Republican further states, on the authority of S D Bayless, that there is a delinquent tax owing by the railroad co. to the county, and that Mr Randall, who is the attorney for the comgany, is also the a torney for the county, whose truth; but they neglect to inform the community. railroad co. informed them that as attorney for the county, he should use every effort for the col lection of the tax, and the R R Co thereupon appointed other attorneys to defend the suit. Railroad property cannot be sold for taxes; but Mr Randall commenced suit for the amount, and the company without waiting for judgment, have and have further given notice of their readiness to pay the present year's tax, as soon as officially must be active in his behalf, and not allow him advised of the amount. There seems to be a determination on the part flattering. His audiences have been targe and of the opposition to resort to any species of attentive-affording a marked contrast to the falsehood and misrepresentation in order to dealim attendance which Mr Case has had at his teat our candidates. We have democrats enough vention on the question of negro suffrage, charge those he opposes, he himself is utterly without in the district to ensure success, if we can only ing that he was in favor of negroes voting, because he voted against laying on the table an amendment excluding negroes from voting This is rather singular proof; and in our judgment proves quite the contrary from what was intended, and shows Mr. Hamilton to have taken the right grounds on that question.

To place the matter beyond cavil, we give from the record a brief view of what Mr. Hamilton did in the convention on the negro ques-

SATURDA7, OCTOBER 2d. 1858. BAYLESS W. HANNA will speak at Coler-

Rev STEPHEN H. BATTIN of Cooperstown New York, will officiate in Trinity Church of this place, to morrow morning and afternoon, at the usual hours of holy service.

Junge Dawson has been induced by the ur gent solicitations of the people of Lagrange Co without distinction of party, to hold the Court in that county next week. There are several highly important criminal cases to be disposed of, and the desire to have Judge Dawson's services was so general and so urgently expressed that he did not feel at liberty to decline. He will consequently be unable to accompany Mr. Case in a joint convass to the several county seats, as he had intended doing; nor will he be able further to canvass this county. His friends must be active in his behalf, and not allow him advised of the amount. So much for this bugato suffer from having preferred to discharge his boo story. Allen Co. will do her whole duty, and give a larger majority for Dawson than ever before for any congressional candidate. The skies are bright, and success certain if we only marshal ment proves quite the contrary from what was our forces properly and bring them to the charge. It is a popular subject to speak upon, and he flatters himself he is aiding his election by this course, without taking time to reflect that it is a matter the Legislature has even if true, cannot aid his election to that body. If he is so anxious for a reform in this matter he ought to run for County Commissioner. where he might effect a reform, instead of the Legislature, where his good intentions will be of no service to his suffering constituents Such arrant demagoguery ought not to pass without cept negroes and mulaitoes" rebuke, and his course is already directing attention to certain alleged acts of extortion and a vote on the original proposition, and would shaving he is charged with having committed Hovey on the table. ing up claims against the company he served at and nays. an extort onate discount He may be as innocent of these charges as the county officers are of those he brings against them; but it would affirmative. at least be prudent in a man so open to suspicion to be more careful of making charges against raises it.

We stated last week that a portion of the expenses of this county where for objects over control-tor ex enses of courtsnand criminals, paupers, roads, and bridges, &e., and a glance at the Auditor's Report proves this to be the case. By that document we learn that the expense of

TheRepublican complains of bad management because our county railroad stock was not sold at a time when it might have been for 85 cents on the dollar. We much doubt if there ever has been a time when this stock would have realized that sum in cash; but even if there has, it was at the period when Judge Hanna, whom the Republican recommends as a model-man for Co Commissioner, was entrusted with the charge of this matter, as agent for the county-so the commissioners are not to blame. The truth is. as all know, at the time the stock would have sold, no one wished to dispose of it, as there was county for certifying in the lunacy case of Emia general belief, it would soon command a pre- ly Farmer. The Republican further states, on the authority of S D Bayless, that there is a delinquent tax owing by the railroad co. to the county, and that Mr Randall, who is the attorney for the comany, is also the actorney for the county, whose duty it is to collect the tax. This is partly the truth; but they neglect to inform the community. that Mr Randall, on entering the service of the railroad co. informed them that as attorney for the county, he should use every effort for the col lection of the tax, and the R R Co thereunon appointed other attorneys to defend the suit. Railroad property cannot be sold for taxes; but Mr Randall commenced suit for the amount, and the company without waiting for judgment, have and have further given notice of their readiness to pay the present year's tax, as soon as officially the Roorbacks of Messre Bailey and Bayless

There is a certain Dr Franklin K. Cosgrove, who once wanted to be County Treasurer, and is now making himself very busy in Springfield township, in circulating charges of extravagence against the county officers. This same Dr Cosgrove presented a claim of \$9 00 against the being only \$3 00

Again, in May, 1857, he charged \$15 00 for making what he termed a post-mortem examinroad company as the county does. How is it ation on the body of a child found in Springfield tlen that they did not sell? and why do they township-a service he was as well qualified to perform as a cow is to handle a musket. He was allowed \$5 00 for this, which is more than is usually charged by competent men.

A pretty fellow, truly, to rail at county extravagance, who has himself sought to cheat the county, by making double or treble charges against it. He is a fair specimen of those who are loudest in making such charges, and if he had any shame in him would hang his head every time the subject of county expenses was named. He would have had some pretty fat pickings if he could have got his fingers into the county treasury. When he next makes his charges his hearers would do well to remind him of his own delinquences, and point to his own experience as a proof that the County Commissioners exercise due caution and economy in appropriating the county moneys.

This was all the injury done, and out of this slight mishap grew the whole startling report of the killed and wounded alluded to above This story lost nothing in the telling, and it should afford a caution not to trust too implicitly to rumors of this nature.

Suffice it to say, that he stands on the broad ground of National Democracy which knows no geographical lines, but which embraces in its wide expanse the whole Union. As was truly remarked of the opposition by

the Judge, what a lesson the past few years in-culcate! illustrating the impracticability and vacillation of our opponents, who, at times affecting veneration and devotion to the Constitution and the Union, pouring forth pecons for its glory,

the majority against us was more than 30 000. t is now reduced to less than 8,000. With all the bribery and ballot box stuffing of the Black Republicans to contend against, we have won the victory in the Sixth Congressional District, and pressed the enemy to the wall in the Third and First. Nothing is more certain than that we shall carry the State next year; you can read 26 165 361 46 this in the countenance of every intelligent 7 122 063 00 Republican. Maine is at heart a Democratic State, and can not remain twelve months longer under the black flag of Abolitionism. Let no Democrat lay aside his armor, but keep it ever on and ever bright -Bangor Daily Union. Maine Election -The Democrats have elected

two members of Congress in Maine in place of Republicans-Mi Bradbury in the Sixth District, and Mr Johnson in the Third. By means of gross frauds the Republican, returning officers intend to declare their candidates elected and give them certificates of elect on. The Democrats will contest and will get their seats awarded them by the House - Cincinnati Enquirer.

What Have They Done for Them - The Republican papers are just now appealing 'most piteously to the foreign born citizens for their rotes. What have the opposition ever done to improve the political condition and privileges of that class? In the elder ADAMS' time they passed an alien and sedition law, and from that time pens that the present Democratic Congress is so the whole influence of the opposition has been to increase the disabilities of the foreigner. Can this class forget the scenes of 1854 and 1855 ? And yet this party, with this record, ask the foreign born citizens for his support. Should not every foreign born voter regard with indignation such a proposition? And must not such a party rescued from the water, both the and the third Executive had taken the most decided stand, as feel humiliated in seeking and asking for such support?-State Sentinei.

How to tell bad Eggs -Of the many ways to tell bad eggs, I know of only one that I can put an entire dependence in. "If an egg will float it is bad," says one. "If it is hot at both ends look out for it," says another. "If it has a clear look when you hold it against a strong light, have a care," says a third, and so on for balf a dezen other ways besides. Now any one that has tried the first way knows that a bad egg will sometimes sink; and as to the second plan, it is often difficult to tell in a fresh egg which is the warm end; and as to the plan of looking through an egg I would really like to know what can be seen in the operation. But the true way to tell good eggs is to put then, in a pail of water and if they are good they will lie on their sides always; if bad they will stand en their small ends, the large ends always uppermost, unless they have been shaken cons.der ably, when they will stand either end up Therefore a bad egg can be told by the way it rests in water-always end up, never on its side. Any egg that lies flat is good to cat and can be depended upon.
